## EDUCATION

**LNCT University, Bhopal , MP** | B.Tech in Computer Science and Engineering

2023-2027

## WORK/INTERNSHIP EXPERIENCE

### Pearl Thoughts

July 2025 – August 2025

Backend Developer Trainee

- Contributed to building a healthcare appointment scheduling system by developing authentication, doctor/patient management, and appointment booking features.
- Designed and implemented APIs to support profile management, availability scheduling, and secure appointment handling.

### Lakecity University | Lakecity Hackathon 2025

April 2025

- Contributed to frontend integration using React.js, ensuring smooth interaction with backend services.
- Built and deployed the backend of a real-time food donation platform using Spring-boot, and MongoDB Atlas.

## PROJECTS

### AnnDaan: Food Donation Platform

April 2025 - Present 

- Built and deployed the backend using Spring Boot and MongoDB Atlas, enabling real-time donation management and NGO alerts.
- Contributed to frontend integration using React.js, ensuring seamless communication between the UI and backend services.

### Timelume: A Digital Time Capsule

Feb 2025 - Present 

- Created a web app that allows users to store and retrieve digital messages in the future.
- Built using HTML, CSS, and JavaScript; implemented countdown timers, future unlock logic, and persistent local storage.
